

How to Access. Search: “[Metric Program NIST](#)”

On the **left** navigation go to [SI Education and Training](#) (There are many good options)

Under [SI Education and Training](#) explore the following:

- [Education Resources on the Metric System \(SI\)](#) – A curated collection of resources to enrich classroom curriculum and reinforce student learning.
- [SI Teacher Kits Available for Educators](#) – Obtain a *free* set of metric education classroom resources for your classroom. Contact Go To: TheSI@nist.gov (include your name, school, subject, grade level, phone number, and mailing address).
- [Everyday Estimation](#) – Estimation is more than taking a guess. Approximation skills help interpret the world around us. Estimation skills are key to sensemaking and checking for reasonableness of a measurement result.
- [NIST Metric Trivia Quiz](#) – Try the [NIST Metric Trivia Quiz](#) online for fun and test your knowledge of Metric.

Highlights for Teachers

Professional Development: (under Trade and Commerce, Click on professional Development and Training)

Free Webinars

Educators are invited to attend Metric Program technical training and professional development courses. Explore the [Calendar of Events](#) to identify currently scheduled sessions, typically designed for 90-minute time blocks (or less).

(Under other events)

NIST Summer Institute for Middle School Science Teachers

This two-week workshop in July features hands-on activities, lectures, tours, and visits with NIST scientists and engineers in their laboratories. See NIST Website on how to apply, details and deadlines. Applications must be submitted through your school district or private school administration.

(Be sure to explore this)↓

Use the [NIST Educational STEM Registry](#) (NEST-R) to discover Science, Technology, Engineering, and Math educational resources published by NIST.

Search by free text and using a filtering system to locate the resources that are most applicable to your needs. Happy exploring!
